

Visage

William Dennisuk:

“Visage”, 2016

Materiaalit: 3M Optical Lightning Film ja pleksi

Koko: n. 244cm x 11m

In this installation, I striving to involve the visitors, landscape, architecture, and sculpture in a more complex set of interdependent relationships. I wanted to create an artwork that is not just something one “looks at”, but rather something one moves through and experiences as a more layered and complex response to the entire site.
